动画与绘制

# Animation

- @keyframes定义
- animation: 使用

```
@keyframes mykf
{
  from {background: red;}
  to {background: yellow;}
}

div
{
  animation:mykf 5s infinite;
}
```

# Animation

- animation-name 时间曲线
- animation-duration 动画的时长;
- animation-timing-function 动画的时间曲线;
- animation-delay 动画开始前的延迟;
- animation-iteration-count 动画的播放次数;
- animation-direction 动画的方向。

# Animation

```
@keyframes mykf {  
  0% { top: 0; transition:top ease}  
  50% { top: 30px;transition:top ease-in }  
  75% { top: 10px;transition:top ease-out }  
  100% { top: 0; transition:top linear}  
}
```

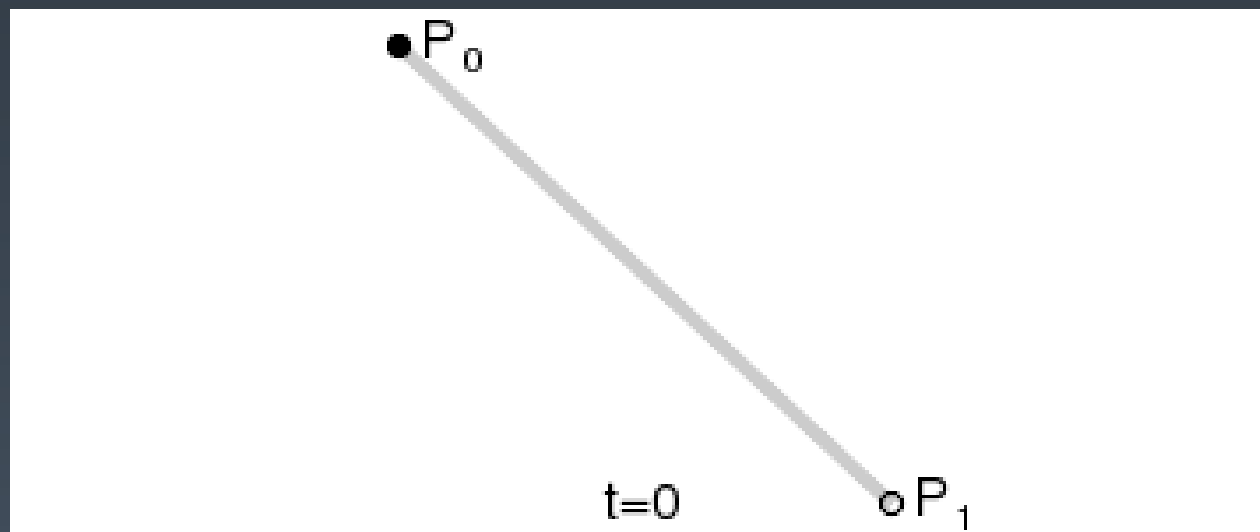

# Transition

- transition 使用

# Transition

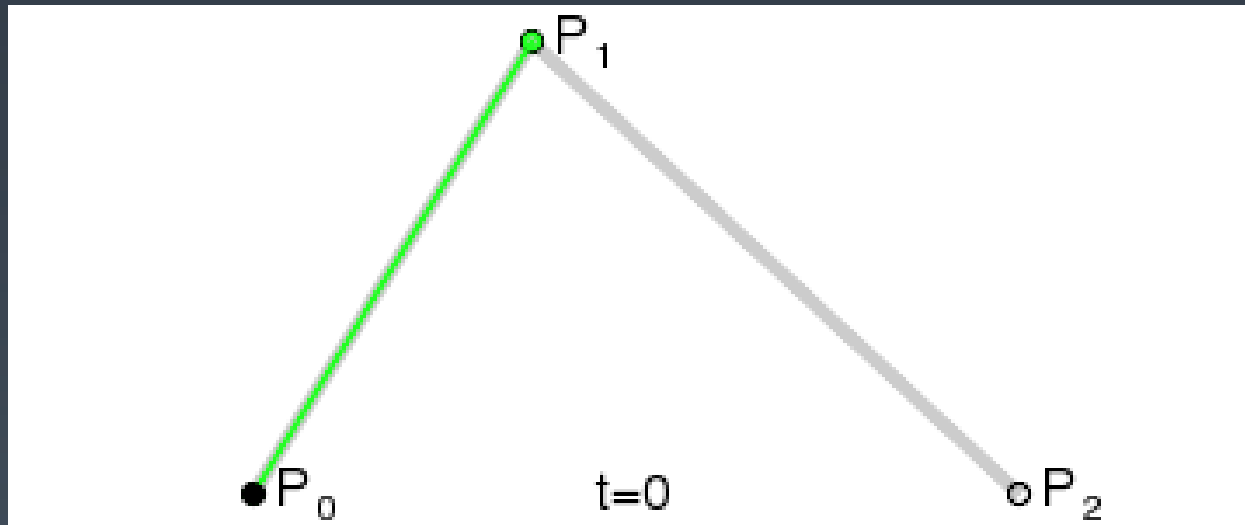

- transition-property 要变换的属性;
- transition-duration 变换的时长;
- transition-timing-function 时间曲线;
- transition-delay 延迟。
